Mr. and Mrs. Fred Bourgeois, Sr. Mrs. William Zimmerman and Mrs. Roger Boudages motored to Poplarville, Miss., Thursday night. They attended a play called "Our Town" at Pearl River Junior College, Freddie Bourgeois, Jr., had the lead part in this play.

Mrs. Ida Bourgeois went to New Orleans to spend two weeks with her daughter Mrs. Rita Jorns.

Peggy Ann Brockman, 10, while visiting her grandparents, Mr. and Mrs. T. H. Brockman, in Waveland during the Easter holidays composed the following poem.

TONIGHT
I am going to stay awake tonight
and see the Easter Bunny
Do you suppose he's black or white?
He must look very funny when
he tip toes in my room
I'll close my eyes real tight so
he won't know I am not asleep.
I can't wait till tonight
and when he's filled my basket
and hurried out of sight
I shut my eyes and go to sleep
I'll do it all tonight.

The First Easter
That morning was a joyful time
Everyone was glad
Those who had crucified Jesus
were the one that were sad
Because Jesus was risen
gone from the grave
But now people knew that they
could be saved
The year that it happened I
know not, but the wonderful
story I haven't forgot.

High wind kinder hindered fresh water fishing over the Easter weekend. However some nice size green trout were caught. Cooler weather also affected the fishing. The fish have been caught on underwater baits, but with warmer weather soon they should begin hitting surface baits.

Reports say August Rauxet, Raoul Teilhard, caught some nice fresh water fish Saturday.

Sylvan Ladner, Alden Mauffray, Dec Elliott and Johnny Scafield Jr., made a nice catch last Wednesday.

Joe Glover, Wop Glover and Dave Glover were over for the weekend. Joe did some fishing while Wop visited in the county. Dave just visited!

Quite a number of Easter visitors invaded the Pass Christian Golf Course, actually it was one of the largest crowds seen on the course lately. Pro Tarleton said it was a pleasure to welcome the players most of whom praised the course and promised to return soon.

Playing this week were John Genin, John Scafield, Jr., Ned Heath and Pete Merritt in the Junior qualification for the Youth Golf Tournament to be played in Jackson.

Max Dosset of Pass Christian Isles has promised to do some fly fishing with us. We're waiting Max.

Sam Mayer can always tell you where to get some green trout and perch — it's his specialty and he really knows how to get 'em!

Seem like the cool weather is also affecting soft crabbing - very few have been caught lately according to those going out after them.

Mr. and Mrs. Ray Hoffman and the 4 little Hoffmans enjoyed an outing at Covington, La. Sunday with their relatives, playing ball, picnicking etc. They journeyed to the Bay Sunday night and brought to New Orleans Dec and Mrs. Elliott for a short stay.

Henry Lang is really disappointed — can't get his feet wet — says the soft crabs just won't cooperate!

Waiting to hear from Cotton Blaize and Pat McGinity regarding soft crabs they usually are the first to go after them.

August Rauxet, Joe Kern, Joe Glover, Chester Ford, Fred Garner, etc., are readying their speed hulls for some outside fishing soon. Speckles should be making their appearance soon. Here's hoping!

Sorry to hear of the death of Charles (Jerkey) Banderet last week. He was a good sport and a good friend.

The public hearing for setting hunting seasons and bag limits for 1961-62, previously set for Tuesday, May 9, at 10:00 a.m., has been changed to Wednesday, May 10, at 10:00 a.m. This public hearing has been postponed due to the fact that municipal elections are scheduled on Tuesday, May 9.

The meeting will be held in the main auditorium of the Woolfolk State Office Building in Jackson. Mr. John Camp, Director of the Game and Fish Commission, urges all members of sportsmen clubs, conservation leagues and all other

interested persons to be present at the hearing to present views and express recommendations pertaining to the 1961-62 hunting season.

Mississippi has a new state record for largemouth bass. On March 7, 1961, Robert W. (Bully) Pickle of Keesauqua landed a nine pound four ounce bass from a two-acre slough near Dossville, Mississippi.

Mr. Pickle was using a Shakespeare Wondered with Johnson Century reel and a 10-pound test monofilament line.

This hefty bass fell victim to a Heddon No. 3 Hep lure.

Mr. Pickle is a pharmacist, and he challenged each and every one of you to beat his fish for size.

Now is the time for the bowman to try his hand at shooting rough fish.

Barry Freeman, Chief of Fisheries of the Mississippi Game and Fish Commission, said that carp, buffalo, and gar are moving into the shallow water to spawn. The best places are old fields or flats where the water is shallow.

Most all of the streams and lakes are up now and afford some excellent places to enjoy this type of sport.

Freeman said, "Not only will you be having a lot of fun, but you will be assisting in the reduction of rough fish in our lakes and streams. Just be sure you put a heavy line on your arrow or some of those 10 and 12 pound fish will break your line and take your arrow with him."

SOIL CONSERVATION NEWS

The Hancock County Soil Conservation District, with assistance from the soil conservation Service, has provided new plans for the following farmers in the county since January 1, 1961: Mrs. Drucella Weather, Leetown; Mr. A. C. Miller, Leetown; Mr. A. E. Cazauban, Bay St. Louis; and Mrs. Gertrude Thigpen, Santa Rosa; this adds 539 more acres in the county under the S.C.D. with planned conservation based upon the soil capability. Two plans have been revised by the S.C.D. since January 1, 1961: Mrs. James Rester, Leetown; and Mr. Plummer Shaw, Orange Creek. 80 new acres under conservation were added in the revision of these two farm plans.

Conservation planning on the farm is a serious and complex job. There are many problems to handle. It is necessary for most farmers to obtain a living from the different enterprises on the farm. Yet planning soil and water conservation measures must always strengthen the economic value of all enterprises on the

farm if carried out as recommended.

Contact your local Soil Conservation District Office for more information. Nacaloe Aves., Bay St. Louis, Miss. or call HO 7-8815.

Mark Dunning, Conservation Aid, and Hugh Sanford, Work Unit Conservationist of the Hancock County Soil Conservation District attended a two day training at Wiggins, Mississippi on March 30 and 31, 1961.

The training was given by Mr. Joseph V. Zary, Forester, Soil Conservation Service, Hattiesburg, Mississippi. The subject of training was "Use of Woodland Conservation Standard and Specifications" and "New Woodland Planning Work Sheets."

The purpose of this training was to better enable us to assist the farmers and ranchers of this county plan better use of the woods on their farms. Every acre of land should be producing something of economic value as well as providing protection to the soil.

Weekend guests of Mr. and Mrs. E. N. Carroll were her brother Mr. G. E. Forrest and Miss Billy Wade of Baton Rouge, La., and Misses Paulette and Colleen Glass of New Orleans.

25 Per Cent Of Farms In Mississippi With Telephones

A telephone survey conducted during the year ended June, 1960 showed 25 per cent of the farms in Mississippi with telephones. This compares with 26 per cent in 1959, 23 per cent in 1958, 22 per cent in 1957, 21 per cent in 1956, and 15.5 per cent in 1955. The increase in Mississippi from 1959 to 1960 at 2 per cent was equal to the gain made in 11 other states.

Soybean Acreage At Record Level

Intention reports from soybean producers in the State showed they intended to plant 1,024,000 acres of soybeans alone for all purposes. If the final planted acreage equals the intended acreage, it would be the largest crop ever planted in the State, and be five per cent above the previous record high acreage of 976,000 acres in 1959. Last year's acreage grown alone for all purposes totaled 968,000 acres, 6 per cent less than the 1961 expected acreage.

Apprenticeship Workers To Assemble In Jackson

Jackson will be the site July 27-29 of the Southern States Apprenticeship Conference, and Secretary of Labor Arthur J. Goldberg has been invited to address this gathering of some 1300 persons working in the field of apprenticeship training and the development of skilled craftsmen in various labor categories. The conference is being planned by Mississippi management and labor, co-ordinated by the Bureau of Apprenticeship and Training of the U. S. Department of Labor and the Industrial Education Department of the Mississippi Agricultural and Industrial Board. This is the first such conference to be held in Jackson. One previous conference was held in Biloxi.

Mississippi Livestock

Slaughter by commercial livestock slaughtering plants in Mississippi during January, 1961 is estimated at 94,786,000 pounds liveweight. This was 2 per cent above the December 1960 total of 33,954,000 pounds, and 11 per cent above the total of 30,860,000 pounds in January, 1960. The number of cattle slaughtered in January totaled 23,600 head, calf slaughter was 8,900 head, and hog slaughter was 53,000 head.

Girl Scouts Rate Special Salute

Girl Scouts and their leaders in Mississippi have joined the 3,500,000 members of their organization throughout the country in celebrating the 49th anniversary of the Girl Scouts. Since first organized in 1912, over 17 million Girl Scouts have benefited by the Promise and Laws of Girl Scouting, a meaningful code of ethics promoting sound character and a spirit of service. Many former members during their Scouting years discovered their future vocation and avocations.

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Do you gain any real comfort from that old cliché about dark clouds having silver linings? Who can peel a cloud to find its happy lining?

But frustration has been a blessing to many men. It has driven self-centered souls to seek a new fulcrum for life. It has brought men to God . . . acknowledging human failure . . . seeking divine strength.

And as they have found in the Church comfort and courage they have learned anew the spiritual meaning of defeat and victory.

The One that this world crucified is King of kings, Beyond a cross and a crown of thorns our greatest aspirations await us.

HOME AGENT'S NOTES

MARCIA P. HUGHES
Home Demonstration Agent

The garden specialists say: Let's plant something in the garden every week during March and April.

Get your ground worked, your seed and fertilizer and tools together, and let's go. Lots of folks have some vegetables planted already. The experts say you could have 7 to 10 vegetables planted already.

For timely advice on gardening, fruit and flowers, ask for a copy of the March-April Garden Fruit Guide at your Home Agents' Office.

FOUR ESSENTIALS OF BETTER LIGHTING

1. Have recommended amount of light for the task. Adequate lighting for another one. Sewing on dark colored materials requires much more light than playing cards, reading or playing the piano.

2. Avoid glare. Be sure no bare bulbs or tubes are exposed to the eye. Avoid annoying reflections from a book, desk or another object by having all lamps and fixtures shaded to provide diffused lighting.

3. Have enough lighting in enough places. Don't have lighting in one spot of the room, leaving the rest of the room dim. Use modern lamps and fixtures to distribute the lighting upward

and downward over wide areas. 4. Direct the lighting correctly. Working in your own shadow will strain your eyes. To avoid shadows from hand or body, more of the lighting should come from the left of right-handed people and from the right of left-handed people.

Discusses Stewardship Of Soil, Water, Etc. At Meeting

South Mississippi Woodland Conservationist Joe Zary showed a film and discussed stewardship of soil, water, grasses and timber resources at a meeting of the Flatop Home Demonstration Club recently.

Hugh Sanford, Hancock County Soil Conservationist, Mrs. Marcia Hughes, Home Demonstration Agent, and 30 members attended the meeting held at the home of Mrs. J. F. Fargason.

The roll call was answered with "My favorite accessory" and the thought of the month was "A Compliment day will never drive friends away."

Mr. Hughes gave a demonstration on costume accessories and discussed the style show. Guests of the club were Mrs. Ola Moran C. P. Beyer. Mrs. Beyer thanks the members for their assistance in the 1961 heart fund drive.

Closer Spacing Of Sweet Potatoes Indicated In Test

STATE COLLEGE, Miss. — Closer spacing will help sweetpotatoes growers get more "canner-size roots, which are now in demand for processing whole."

W. S. Anderson, head of the Mississippi Experiment Station horticulture department, compared four different spacing rates in a series of tests.

In both 1959 and 1960, sweet potatoes were grown at 6-inch, 8-inch, 12-inch-twin, and 12-inch single spacings.

The conventional wide spacing of 12 inches between single plants produced about 100 bushels per acre less of canner grade potatoes than did the other three closer spacings. Another advantage for the close spacing was the absence of "jumbos."

To be classed as U. S. Standard No. 1 for whole canning, sweetpotatoes must be 1 1/2 to 2 inches thick and not more than 5 inches long, Mr. Anderson said. The No. 2 grade may range from 1 1/4 to 2 1/4 inches thick and not more than 9 inches long.

Mechanical transplanters can be adapted to handle the closely-spaced plants. Growers who use close spacing are cautioned that it requires good land, ample fertilizer and irrigation in dry weather.

The complete report on the closely-spaced sweetpotatoes is published in the March issue of Mississippi Farm Research, available on request from the Mississippi Agricultural Experiment Station at State College.

Seat Belts To Be Standard Equipment On 1962 Model Cars

A major breakthrough in effort to promote the use of seat belts was achieved when Ford, General Motors, Chrysler, American Motors and Studebaker-Packard announced recently that they would install seat belt hardware as standard equipment on their 1962 models.

The Mississippi Safety Council applauded the action in a statement issued by Otto R. Smith, its president, who called the action "a milestone in the history of traffic safety."

According to the automobile manufacturers reinforcing plates will be attached to the floor pans of the 1962 cars, and there will be universal brackets to which standard belts can be attached.

The Safety Council President stated that in the past, installation of belt in the front seats had cost between \$20 and \$30 — mostly for labor cost for drilling through the floorpan and attaching the hardware.

On the 1962 cars the only expense of seat belt installation will be the cost of the belt itself. Smith said, "if all Mississippians would wear a seat belt whenever they are in an automobile, the number of traffic deaths would be reduced by at least 35%."

He said a nationwide investigation and study of the highway deaths occurring during the July 4 holiday weekend last year, revealed that 40% of the 462 people killed would not have died or been seriously injured if they had worn a seat belt.

"Not one of those killed during this holiday period had a seat belt," Smith said.

The Council President said that approximately one out of twenty of the Mississippi vehicles are now equipped with this safety feature, and it is hoped that with the cooperation of the automobile industry many thousands will install the inexpensive belts at the time of their 1962 purchase.

"However," he said, "we should, by no means wait until 1962. Seat belts should be installed now. They can save your life."

Smith said the belts should be used at all times and not only on long trips.

"Many people are killed in wrecks where speed is not a factor. A car going 20 miles per hour can kill just as quickly as one going 80," he said.

"The belts should be fastened before the car is started, no mat-

Robert Necaise, 67, Died At Residence In Long Beach

Robert B. Necaise, 67, died at his residence on McCaughrin Avenue in Long Beach Tuesday March 28 at 7:30 a.m.

A native of Waveland and a lifelong resident of the Coast, Mr. Necaise was a former employee of the Louisville and Nashville Railroad and was later employed with Great Southern Land Company.

Survivors include three sons, Everett Necaise, Long Beach; James H. Necaise, Gulfport; and Curtis Necaise, Englewood, Calif.; four grandchildren; and two brothers, Thomas Necaise and Emilie Necaise, both of Bay St. Louis.

Funeral services were held Thursday March 30 from Bieman Chapel with religious rites at St. Thomas Catholic Church with the Rev. Francis P. O'Malley, C.M., officiating. Interment was in Long Beach Cemetery.

Banderet Private Funeral Services Held Saturday

Private funeral services for William Charles Banderet were held at 10:00 a.m. Saturday from Fahey-Whitfield Funeral Chapel with interment in Cedar Rest Cemetery.

Mr. Banderet, 45, a native and lifelong resident of Bay St. Louis, died Friday, March 31, at 3:30 a.m. at the V. A. Hospital in Biloxi.

Survivors include his wife, Mrs. Mildred Josephine Bentz Banderet; a daughter, Miss Alice Marie Banderet; his parents, Mr. and Mrs. Charles A. Banderet; and a sister, Mrs. A. C. Mitchell, all of Bay St. Louis.

ter how short the drive."

The Council president praised the Board of Health on its campaign to have seat belts installed in the autos of its employees.

"Other state agencies should follow this example," he said. Smith said the Council would continue the promotion of seat belts as an outstanding safety feature.

"Our job is to reduce the number of accidents and accidental deaths. The use of seat belts by the motoring public will reduce traffic deaths," he said.

COUNTY AGENT'S NOTES

O. O. SWORDS
County Agent

For a fire-safe farm, clean-up.

This is the basic message of Spring Clean-Up which started in Hancock County on March 31st, 1961. O. O. Swords, County Agent announced today,

"Clean-up makes good sense for a lot of reasons," he says. "But most important of all is that it helps make the lives of you and your family safer from fire."

"According to the National Fire Protection Association, which has been gathering and analyzing fire records since 1896, more than a half million homes in this country were hit by fire last year. Over 5,600 people died in those fires. There were about 85,000 fires in barns and other farm buildings.

"Rubbish is one of the top four causes of building fires, the National Fire Protection Association records show.

"So what it comes to is this: clean up our homes and farm buildings and we'll cut the number of dangerous, killing fires. So our goal for Spring Clean-Up is to make every farm in this area safer from fire."

Cooperating in this year's observance will be: (fire department, farm bureaus, 4-H, merchants, church groups, etc.)

Spring Clean-up is sponsored internationally by the National Fire Protection Association to promote fire safety throughout the United States and Canada.

GARDENING

Gardening jobs for April. A good year-round garden is worth \$200 to the average farm family in Hancock County. Vegetables to be planted in April are: Beets, carrots, chard, leaf lettuce, collards, mustard, radish and turnips now if you didn't plant in March; in addition, plant these tender crops: all beans, corn, cucumbers, New Zealand spinach, okra, flid peas, pepper, squash and tomatoes.

Fertilize with five to eight pounds of 6-8-8 or 5-10-5 fertilizer per 100 feet of row and in the row, two weeks before planting, would help increase your produc-

State's Tallest Building Going Up At Pascagoula

The tallest building in Mississippi has been finished on the outside, and interior work is now underway. This is the 23-story grain elevator now under construction at the Port of Pascagoula, which is 233 feet high. The next job of the workmen will be to install "cells" and "inside finishing in the interior. When completed, the building will house the machinery used in operation of the project.

Meanwhile, construction is under way on 39 storage bins in three rows of thirteen each. The bins, each one 130 feet high, can hold 2,100,000 bushels of grain. Six load-out chutes will carry grain from the bins to vessels

docked in the Giant conveyor move the grain handling 25,000 bushels. Completion of the elevator is expected by Blount Brothers of Montgomery. The elevator will be Standard Milling Co. City.

CLEAN PICKING WITHOUT COTTON TWIST

This new two row cotton picker is the second to be introduced by Allis-Chalmers for the 1961 harvest. Powered by a D-17 tractor, available with gasoline or diesel engine, this model incorporates features that provide efficient, cleaner picking which results in a greater percentage of high grade cotton for the grower. As the 2,680 chrome plated, recessed barbed spindles enter the picking area, they start spinning to do the picking job. During the stripping operation, they stop spinning to eliminate picker twist. Between cotton harvests, the tractor can be converted for other field use.

Shower For Bride-Elect In Pass Christian

White flowers and greenery decorated the home of Mrs. Alden Keel at 218 East Second Street in Pass Christian recently when she entertained jointly with Mesdames Carl Keel and Lionel Keel at a lingerie shower honoring their niece, Miss Marie Louise Peranich, bride-elect of Mr. Daniel E. Cambre.

The decorations carried out the theme of the wedding with small dolls dressed as a bride and bridesmaids.

The table held a small wedding cake with lighted tapers on either end. After games were played the bride-elect opened her gifts which were placed in a large white basket.

Mrs. Elmer Moran of New Orleans, another aunt of the bride-elect, cut the cake.

Refreshments were served to the 30 guests by the hostesses, Mrs. Gerald Anderson and Mrs. John Peranich.

Miss Peranich, who wore for the occasion a white figured silk sheath, was presented a corsage of pink carnations. Mrs. Peranich was given a white carnation corsage.

Last Sunday Mesdames Gerard Frey and Miss Valerie Cambre sister of the groom-elect, honored Miss Peranich with a surprise linen shower at the home of Mrs. Frey in Metairie, La.

A pink and white motif was carried out in the decorations.

Gifts were placed in a white cart topped with a pink tulle umbrella.

After the honoree opened her gifts, refreshments of punch, pink petit-fours, sherry and finger-tip sandwich were served the 40 guests.

Miss Peranich was presented a shoulder bouquet of small white chrysanthemums.

The marriage of Miss Peranich and Mr. Cambre will be an event of April 29.

"GO NAKED IN THE WORLD" STARTS APRIL 12 AT LEGION THEATRE

Filmed partly on location in Acapulco, Mexico, "Go Naked in the World" stars Gina Lollobrigida, Anthony Franciosa, and Robert Borgnine in a torrid romantic drama.

Miss Lollobrigida plays Julie, a girl to whom men are more rung up the ladder to an easy and luxurious life. Franciosa is a returned G.I. who falls in love with her. Borgnine portrays his domineering father who had once known Julie and who refuses to accept her as a daughter-in-law. The three-fold conflict makes for a drama of mounting emotional tension leading to a gripping climax.

Playing a featured role as Franciosa's younger sister, who also rebels against her father's over-possessiveness, is Luana Patten, who scored a personal hit in "Home From the Hill."

Based on the novel by the late Tom C. Chalmers, "Go Naked in the World" was produced by Aaron Rosenberg as an Arcola Production for Metro-Goldwyn-Mayer, and was directed by Randall MacDougal.

The picture was filmed on lavish scale, in CinemaScope and color, in settings ranging from San Francisco to the famed Mexico resort.

ENTERTAINS FRIENDS AT EASTER DINNER
Mrs. Hamilton Guenard Sr. entertained a group of friends at an Easter dinner party last Sunday. MOVIES
Adolphe Menjou, portraying Mr. Pendergast, a reclusive who reputedly cannot abide children, harangues Hayley Mills and Kevin Corcoran in this scene from Walt Disney's new Technicolor production, "Pollyanna." The screen adaptation of the famed Eleanor H. Porter novel, stars Menjou, Jane Wyman, Richard Egan, Karl Malden, Nancy Olson, Donald Crisp, Agnes Moorehead and young Corcoran in the title role. Buena Vista releases at the Star Theatre, beginning Sunday, April 9.
